Columbia Gas of Ohio Apples to Apples Chart

Share This Page:

Publication Date: February 11, 2014

The PUCO produces the Apples to Apples charts to provide residential consumers with a snapshot comparison of current natural gas supplier price options and contract terms for individual customers. You may also want to check with your local government to see if your community has grouped together citizens into a buying pool to purchase gas. The PUCO updates the charts on a weekly basis and verifies each supplier offer to ensure accuracy. As with all contracts, consumers should carefully read and understand all terms and conditions before signing any forms or agreeing to enroll with a supplier for natural gas service. For a description of Apples to Apples chart-related terms, please refer to [Chart Definitions](#).

Please be advised that if you are currently enrolled in the Percentage of Income Payment Plan (PIPP PLUS), you are not eligible to enroll with or switch to an alternate supplier.

If you are currently enrolled with an alternate supplier, and want to enroll with a different supplier prior to the expiration of your current contract, you may be subject to an Early Termination Fee.

The PUCO provides the tools you need to calculate your estimated cost. The [Self-Calculation Worksheet](#) that is available on the PDF version of the Apples to Apples Charts, walks you through the steps needed to manually calculate your own estimated cost. Or, you can access the [Apples to Apples Interactive Calculator](#) to automatically calculate your estimated costs.

Chart Definitions

Ccf: One hundred cubic feet; a unit used to measure natural gas usage.

Contract Term: The length or duration of the contract (i.e. monthly, yearly, multiple-year).

County Sales Tax: When natural gas is purchased from another supplier or as part of Columbia's Standard Choice Offer (SCO) program, the natural gas is subject to Ohio sales or use tax. Because county sales tax rates vary throughout Ohio, the county sales tax is not included in the alternate supplier's total rate. For Columbia SCO customers, sales tax at an average of 6.75% is included in the current total SCO rate. Use the attached map to determine your county's actual sales tax rate.

Current Offer: Comprised of suppliers' current commodity options and base rates, exclusive of sales tax, the local utility transportation charge, and customer service charges. Commodity options may be a fixed, variable, or stable rate plan.

Fixed Rate Plan: A constant rate for the contracted period.

Gross Receipts Tax: The local utility must pay a gross receipts excise tax of 4.987% which is applied to the combined Monthly Customer Charge and the Transportation rates charged on the volume of gas consumed (per Ccf).

Standard Choice Offer (SCO): A monthly variable rate and represents cost associated with the securing gas for CGO customers. The rate is based on the New York Mercantile Exchange month-end settlement price, plus a Retail Price Adjustment of \$0.129 per ccf. The Retail Price Adjustment of \$0.129 per ccf will be in effect from April 1, 2013 through March 31, 2014.

Supplier Name: PUCO-certified suppliers that are actively enrolling new customers.

Supplier Total Rate: Comprised of the supplier's natural gas commodity prices, plus the LDC transportation rate charge.

Transportation Rate Charge: The transportation rate charge, which can fluctuate quarterly, is comprised of a base rate, PUCO approved and tariffed riders, and a Gross Receipts Tax.
