**SECTION 2 - REGULATIONS, (Cont'd.)****2.3 IntraLATA and InterLATA Presubscription****2.3.1 Presubscription**

Presubscription is a procedure whereby a Customer designates to the Company the carrier which the Customer wishes to be the carrier of choice for intraLATA and or interLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an toll carrier from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

IntraLATA and InterLATA Presubscription will become effective upon the initial offering of certified local exchange service.

**Presubscription Options**

Option A: Customer may select the Company as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option B: Customer may select her/his interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option C: Customer may select a carrier other than the Company or the Customer's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option D: Customer may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

**2.3.2 Rules and Regulations**

Customers of record will retain their current dialing arrangements until they request that their dialing arrangements be changed.

Customers of record or new Customers may select either Options A, B, C, or D for Presubscription.

Customers may changed their selected Option and/or their presubscribed toll carrier at any time subject to charges specified in Section 2.3.4 below.

**SECTION 2 - REGULATIONS, (Cont'd.)****2.3 IntraLATA and InterLATA Presubscription, (Cont'd.)****2.3.3 Presubscription Procedures**

New Customers will be asked to select an intraLATA and/or interLATA toll carrier(s) at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for presubscription service. The selected carrier(s) will confirm their respective Customer's verbal selection by third-party verification or return written confirmation notices. All new Customers' initial requests for intraLATA and/or interLATA toll service presubscription shall be provided free of charge.

If a new Customer is unable to make a selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 30 calendar days in which to inform the Company of an intraLATA and/or interLATA toll carrier presubscription selection free of charge. Until the Customer informs the Company of his/her choice for toll carrier(s), the Customer will not have a presubscribed toll carrier, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice. Customers who inform the Company of a choice for toll presubscription within the 30day period will not be assessed a service charge for the initial Customer request.

Customers of record may initiate a presubscription change at any time subject to the charges specified below. If a Customer of record inquires of the Company of the carriers available for toll presubscription, the Company will read a random listing of all available carriers to aid the Customer in selection.
