ARTICLES LIABLE TO CAUSE DAMAGE

20

- (a) Carrier will not accept for shipment property liable to impregnate or otherwise damage equipment or other property.
- (b) The carrier will not accept for shipment articles which cannot be taken from the premises without damage to the article on the premises.

BASIS OF WEIGHT (Concluded)

30

- (a) The tare weight of each vehicle used in transportation of household goods shall be determined by having it weighed prior to the transportation of each shipment, without the crew thereon, by a certified weight master or on a certified scale, and when so weighed, the gasoline tank on each vehicle shall be full and the vehicle shall contain all blankets, pads, chains, dollies and hand trucks needed in the transportation of such shipment.
- (b) After the vehicle has been loaded, it shall be weighed, without the crew thereon, prior to the delivery of the shipment and the net weight shall be determined by deducting the tare weight from the loaded weight, except that in instances where no adequate scale is located at origin or destination or at any point within a radius of 5 miles thereof or at any point enroute from point of origin to destination where scales are known to exist, a constructive weight, based on 7 pounds per cubic foot of properly loaded van space, may be used. The gross weight, tare weight, and net weight of the constructive weight shall be shown on the Bill of Lading and freight bill or combined uniform household goods Bill of Lading and freight bill.
- (c) In the transportation of part loads, this Rule shall apply in all respects except that the gross weight of a vehicle containing one or more part loads may be used as the tare weight of such vehicle as to part loads subsequently loaded thereon, and a part load from any one shipper not exceeding 1,000 pounds, may be weighed on a certified scale prior to being loaded on a vehicle, such part loaded to be accompanied by a weight ticket evidencing such weight.
- (d) All tare, gross actual or constructive weights shall be properly certified to, by the person or persons who ascertained such weights.

**BINDING AND NON-BINDING  
ESTIMATES**

35

- (a) Except as provided in Paragraphs (k) and (l) of this Item, carriers engaged in the transportation of household goods must provide written estimates of the cost of such moves. All estimates, addenda to estimates and modifications or changes to estimates shall be in writing in plain and understandable English and shall constitute the contract covering such move. Estimates shall clearly describe the shipment, all services to be provided and all charges to be assessed for the shipment and associated services. Estimates may be offered on a nonbinding, binding or guaranteed-not-to-exceed basis, and the written estimate shall clearly specify whether it is made on a nonbinding, binding or guaranteed-not-to-exceed basis in the manner set forth in this Item.
- (b) A consumer shall accept the estimate by signing on the signature line provided for in Subparagraph (F)(8) of this Item. The carrier shall retain at least one copy of the estimate and shall provide one copy of the estimate, signed by both parties, to the consumer. Following acceptance of the estimate by the consumer both the carrier and consumer shall be contractually bound by the estimate. The carrier may require the consumer to provide a deposit upon acceptance of the estimate by the consumer.
- (c) A carrier engaged in transporting household goods may provide a nonbinding estimate of the approximate costs of transporting such goods. Nonbinding estimates shall be provided only after a visual inspection of the goods by the estimator. The carrier may charge a reasonable fee for performing the visual inspection, provided that this fee is disclosed to the consumer prior to the visual inspection and the amount of the fee shall be credited to the shipment's rates and charges if the consumer accepts the carrier's estimate. All nonbinding estimates shall be reasonably accurate and in accord with the carrier's tariff. The final charges on shipments moved after a nonbinding estimate shall be determined by the carrier's tariff applicable to such transportation.
  - (1) A nonbinding estimate shall clearly indicate on its face, in boldface type or a contrasting color, the following statement: "THIS ESTIMATE IS A NONBINDING ESTIMATE. IF THIS ESTIMATE IS ACCEPTED, THE COST MAY EXCEED, OR BE LESS THAN, THE AMOUNT CONTAINED IN THIS ESTIMATE."
  - (2) A nonbinding estimate must contain the rates, charges and provisions of the carrier's tariff which are applicable to the shipment for which the estimate is made. All rates and charges shall be clearly and explicitly stated per unit in U.S. dollars and cents. Rates may be stated in any measurable unit verifiable by the consumer.

(d) A carrier engaged in transporting household goods may provide a binding estimate of the costs which the consumer will be required to pay for the services included in the estimate. IMPRACTICABLE OPERATIONS AND APPLICATION OF AUXILIARY SERVICES  
(Concluded)

PART B: APPLICATION OF AUXILIARY SERVICES

- (a) It is the responsibility of the shipper to make shipment accessible to carrier or accept delivery from carrier at a point at which the road-haul vehicle may be safely operated.
- (b) When it is physically impossible for carrier to perform pick-up of shipment at origin address or to complete delivery of shipment at destination address with normally assigned road-haul equipment, due to the structure of the building, its inaccessibility by highway, inadequate or unsafe public or private road, overhead obstructions, narrow gates, sharp turns, trees, shrubbery, the deterioration of roadway due to rain, flood, snow, or nature of an article or articles included in the shipment, the carrier shall hold itself available at point of pick-up or tender delivery at destination at the nearest point of approach to the desired location where the road-haul equipment can be made safely accessible.
- (c) Upon request of the shipper, consignee or owner of the goods the carrier will use or engage smaller equipment than its normal road-haul equipment or provide extra labor for the purpose, if possible of accomplishment, of transferring the shipment between the origin or destination address and the nearest point of approach by the carrier's road-haul equipment. Charges for the auxiliary service to cover labor and additional vehicle (if used) will be as provided at a charge of \$20.00 per hour per vehicle, subject to labor charge named in Item 1040, in addition to all other transportation or accessorial charges.
- (d) If the shipper does not accept the shipment at nearest point of safe approach by carrier's road-haul equipment to the destination address, the carrier may place the shipment or any part thereof not reasonably possible for delivery, in storage at the nearest available warehouse of the carrier, or, at the option of the carrier, in a public warehouse, subject to a lien for all lawful charges. The liability on the part of the carrier will cease when the shipment is unloaded into the warehouse and the shipment shall be considered as having been delivered.
- (e) Transportation charges to cover the movement of shipment or part thereof from point at which it was originally tendered, to warehouse location shall be computed on basis of weight of shipment or that part of shipment stored in warehouse, subject to applicable rate as provided in Tariff from point at which it was originally tendered to warehouse location, which shall be in addition to charges from initial point of origin to point at which shipment was originally tendered. All accrued charges on the shipment or any part thereof shall be due and payable upon delivery of same to the warehouse. Any subsequent movement from warehouse shall constitute a new shipment.

  - (1) Storage-in-transit charges, if any, for the balance of the storage-in-transit period shall be assessed on the same basis as would apply to the remainder of the shipment as an individual shipment.
