TARIFF DESCRIPTION

This Basic Local Exchange Service (BLES) Tariff applies to residential single-line customers and to the primary access line of business customers.

BLES is provided by Conneaut Telephone Company (The "Company" or "Telephone Company") in accordance with Rule 4901:1-6-12, Ohio Administrative Code.

Basic local exchange service, as defined in Section 4927.01, Revised Code, means residential end-user access to, and usage of, telephone-company-provided services over a single line, or small-business-end-user access to and usage of telephone-company-provided services over the business's primary access Line of Service, which in the case of residential and small-business access and usage is not part of a bundle or package of services. BLES enables a customer to originate or receive voice communications within a local service area and consists of the following services:

- (i) Local dial tone service;
- (ii) For residential end users, flat-rate telephone exchange service;
- (iii) Touch tone dialing service;
- (iv) Access to and usage of 9-1-1 services, where such services are available;
- (v) Access to operator services and directory assistance;
- (vi) Provision of a telephone directory in any reasonable format for no additional charge and a listing in that directory, with reasonable accommodations made for private listings;
- (vii) Per call, caller identification blocking services;
- (viii) Access to telecommunications relay service; and
- (ix) Access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies.

P.U.C.O. NO. 7

EXCHANGE RATES

The local calling area embraces all calls between stations bearing the designations of Conneaut, Kingsville and Pierpont.

The classification and rates provided in this section apply at any point within the Base Rate Area which is defined as all territory in the exchange lying north of Route Interstate 90.

	<u>Monthly</u> <u>Rate</u>	<u>Max. Rate</u>	<u>Anniversary</u> <u>Date</u>
Business – Primary Line .....	\$ 20.65 (C)	\$ 20.65 (C)	Aug. 1, 2015
Residence – Individual Line .....	\$15.55 (C)	\$ 15.55 (C)	Aug. 1, 2015
Payphone: .....			
Coin Operated Telephone Service Access Line.....	\$ 12.15		
Coin Supervision Additive.....	\$ 7.20		

The classifications and rates following apply at any point within Zone A which is defined as all territory in the exchange lying south of Route Interstate 90.

	<u>Monthly</u> <u>Rate</u>	<u>Max. Rate</u>	<u>Anniversary</u> <u>Date</u>
Business – Primary Line .....	\$ 23.65 (C)	\$ 23.65 (C)	Aug. 1, 2015

PUCO NO. 7

ASHTABULA COUNTY LOCAL CALLING PLAN

A. DESCRIPTION

1. This plan is restricted to the areas hereinafter described within Ashtabula County.
2. This plan provides for a measured rate or optional flat rate service between specific Ashtabula County intrastate exchanges listed in Section B, below.
3. This is a local service offering; therefore, any stimulation to calling volumes between exchanges that occur after its implementation may not be used as a basis for any flat rate alternative besides the flat rate additives as listed in this section.
4. This plan is available to residence and business customers in the exchanges and routes as listed in Section B, below.
5. This plan is restricted to customer dialed, station-to-station calls and does not include operator assisted calls.

B. RATES AND APPLICATION

1. The implementation of this plan will not affect any other rates listed in any other section of this tariff.
2. Measured Rate Option – Customers selecting the measured rate option will be charged \$.07 (seven cents) per minute for both initial minutes or additional minutes for calls originating in the specified The Conneaut Telephone Company exchanges. No time of day, day of week, or holiday discounts apply to the measured rate option. Max. Rate: \$.07 (seven cents) per minute for both initial minutes or additional minutes.
3. Flat Rate Option – The flat rate option allows customers unlimited untimed calling between the exchanges listed below.

The following are flat rate additives, per access line, per month. These rates are in addition to monthly local rates for both business and residence service listed in other sections of this tariff.

<u>From Exchange</u>	<u>To Exchange</u>	<u>Optional Flat Rate</u> per Access Line per Month			
		<u>Business</u>	<u>Max. Rate</u>	<u>Residence</u>	<u>Max. Rate</u>
Conneaut	Ashtabula and/or Jefferson	\$7.00	\$7.00	\$7.00	\$7.00

Issued: May 12, 2011

Effective: May 12, 2011

In Accordance with Case No. 10-1010-TP-ORD and 11-2939-TP-ATA

ASHTABULA COUNTY LOCAL CALLING PLAN

DESCRIPTION

1. This plan is restricted to the areas hereinafter described within Ashtabula County.
2. This plan provides for a measured rate or optional flat rate service between specific Ashtabula County intrastate exchanges listed in Section B, below.
3. This is a local service offering; therefore, any stimulation to calling volumes between exchanges that occur after its implementation may not be used as a basis for any flat rate alternative besides the flat rate additives as listed in this section.
4. This plan is available to residence and business customers in the exchanges and routes as listed in Section B, below.
5. This plan is restricted to customer dialed, station-to-station calls and does not include operator assisted calls.

**[RESERVED FOR FUTURE USE]**

ASHTABULA COUNTY LOCAL CALLING PLAN (Continued)

C. BILL DETAIL

1. Measured Rate Option

A detailed bill that lists each individual completed call made during the monthly billing period can be provided at a rate of \$2.00 per month. The customer must subscribe to this service for a minimum six (6) month period.

2. Flat Rate Option

No detailed billing is offered or provided to customers selecting the flat rate option plan.

---

CHARGES FOR TRANSFERS, MOVES, CHANGES, DISCONNECTS  
AND RECONNECTS

	<u>Non-Recurring Charge</u>
For the installation of main access line .....	\$ 20.00
For the transfer of an existing installation from one subscriber to another.....	\$ 10.00
For changes other than those specified, when made on request of the subscriber, the actual cost of labor and material.	
For subscribers disconnected for non-payment, before service is again established.....	\$ 20.00

MISCELLANEOUS RATES AND CHARGES

1. Tele-Touch

The rate for this service, which is more commonly known as push button or touch tone dialing, is included in the monthly exchange rates set forth in Section 1, Sheet No. 2 herein. (C)

The above stated monthly charges are in addition to other charges for telephone service contained in other sections of this tariff. The charges are calculated on a per-line basis. All other normal installation, move or change charges will apply as set forth on other pages of this tariff.

---

MISCELLANEOUS RATES AND CHARGES (Continued)

2. Per Call Blocking (Calling Number Delivery Blocking)

Enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The disclosure of the calling party's number can be prevented on a per call basis by dialing a preassigned access code before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per Call Blocking will be provided on a universal basis to all eligible customers at no charge.

All public and semi-public payphones in the Conneaut Telephone Company's service area will be equipped with Per Call Blocking.

3. Telecommunications Relay Services (TRS)

Customers may be assessed a monthly charge per line to fund the Telecommunications Relay Services for the State of Ohio in accordance with section 4905.84 of the Revised Code. This charge shall in no event exceed the per end user line (or equivalent) assessment of the Public Utilities Commission of Ohio levied upon the Company.

4. Late Payment Charge

A late payment charge of \$3.50 per month will be assessed on all balances that are over thirty days past due. The late payment charge will not apply to any portion of the bill that is in bona fide dispute or to any previous late payment fees included in the amount due.

PUCO NO. 7

---

APPLICATION OF BUSINESS AND RESIDENCE RATES

Although the location at which a subscriber's telephone service is established or the type of directory listing desired may in most cases serve as a satisfactory basis for determining whether business or residence rates apply, determination whether such service should be classified as business or residence depends on the character of use made of the service, which will be controlling in all instances.

a. Business Rates:

Service is classified and charged for as business service at all business locations and at all other locations where the use is primarily or substantially of a business, professional, institutional or occupational nature, or where a business listing is furnished, except as provided in paragraph (b) following:

b. Residence Rates:

Service is classified and charged for as residence service at all residences where the primary use is of a social or domestic nature and where the business use, if any, is merely incidental. Service furnished to churches is also classified and charged for as residence service, provided the use of this service is confined to the activities of the particular church subscribing for the service. Where residence service is furnished to a church or clergyman, it will be furnished only on an individual line basis if the access line is located in the church or if in the residence of a clergyman but listed in the name of the church.

When it is determined that a subscriber to residence service is using the service in such a manner that it should be classified and charged for as business service under the above provisions, the Company will discontinue the service of such subscriber in the event he refuses to permit his service to be classified as business service and pay the applicable business rates.

---

CONSTRUCTION AND INSTALLATION CHARGES

General:

1. The charges and regulations specified below apply in connection with all classes of service, equipment or facilities furnished by the Telephone Company and are in addition to any construction or installation charges specified in a particular section of this Tariff.
2. Construction and installation charges are payable at the time the application for service is signed or when the account is rendered, at the option of the Telephone Company.
3. Material and labor furnished by the applicant is subject to the approval of the Telephone Company.
4. When attachments are made to poles of other Companies, in lieu of providing pole line construction for which the subscriber regularly would be charged, the cost to the Telephone Company for such attachments must be borne by the subscriber.

POLE LINE CONSTRUCTION

The following regulations apply to pole line construction necessary to reach prospective subscribers in sections where plant facilities are not available.

PUBLIC HIGHWAYS

- (a) The Telephone Company will erect one of its standard poles, free of charge, along a public highway, to reach each applicant for service or in lieu thereof, will assume the cost of, not to exceed attachments for five (5) poles, where poles of other companies can be utilized. For any poles set in addition to that number, the subscriber is charged as his share of the additional cost of extension of the line, fifty (50%) percent, of the costs of each pole, the minimum charge being Ten Dollar (\$10.00) per pole.
- (b) Or, if the subscriber will furnish poles satisfactory to the Telephone Company, the Telephone Company will set them and furnish the necessary wires and other fixtures, not to exceed one-half mile, without charge.
- (c) In all cases of pole line construction on a public highway, ownership is vested in the Telephone Company. All circuits on public highways are owned and maintained by the Telephone Company.

CONSTRUCTION AND INSTALLATION CHARGES (Continued)

PRIVATE PROPERTY

- (a) All poles necessary, on private property, must be furnished by the subscriber and must be of a type approved by the Telephone Company. Where the subscriber cannot meet the Company's specifications as to poles, the Telephone Company will provide them at cost.
- (b) The Telephone Company at its expense will erect not to exceed five (5) such poles and provide the necessary wires and fixtures. Where more poles are required the subscriber will be charged Five (\$5.00) Dollars for the erection of each pole in excess of five (5) and One Dollar and Fifty Cents (\$1.50) per pole for wires and fixtures thereon. If the subscriber will erect all of the poles the Telephone Company will equip not to exceed ten poles with the necessary wires and fixtures.
- (c) Whenever it becomes necessary to replace poles on private property, the new poles will be furnished, in accordance with the arrangements specified above.
- (d) All poles set on private property are to be under the exclusive control of the Telephone Company as long as they are used to furnish service. All circuits on private property are owned and maintained by the Telephone Company.

UNDERGROUND SERVICE CONNECTIONS

- 1. On Streets with Subways.
  - (a) On any public highway where the Company has constructed subways, or is about to construct a subway, for supplying underground service connections, all subscribers along such public highways shall be required to make connection with said underground system
  - (b) The Company will construct the necessary subway or conduit on the public highway from the main subway to the subscriber's property line, without charge; the subscriber to pay for the extension of same in his private property beyond said property line at the subscriber's request at its extra cost and expense, which must be paid by the subscriber.
- 2. On Streets with Poles.
  - (a) When the standard method of service connection is aerial from poles, and plant conditions permit, subscribers may arrange to have such connection placed underground, as follows:
  - (b) The Company will place the necessary conduit in the public highway from its nearest pole to the subscriber's property line, and extend the same in his private property beyond said property line at the subscriber's own cost and expense.

CONSTRUCTION AND INSTALLATION CHARGES (Continued)

UNDERGROUND SERVICE CONNECTIONS (Continued)

3. In case a subscriber prefers to construct the underground service connection himself, he may do so provided such connections are constructed under the supervision of, and in accordance with the standard specifications of the Company.
4. The necessary underground cable will be placed in the subscriber's premises in conduit, to be provided by the subscriber at his own cost and expense. Ownership in said cable is vested in the Telephone Company.
5. In no case will the Telephone Company place its cable or wire in the same conduit duct, or with other electric conductors.

SPECIAL TYPES OF CONSTRUCTION OR INSTALLATION

When a special type of construction is desired by a subscriber or application for service, or where the individual requirements of a subscriber or applicant for service, make the installation unusually expensive, the subscriber or applicant for service is required to bear the cost of such special construction or installation. The Telephone Company may, if it deems necessary, require the subscriber or applicant for service to make advance payment to cover the estimated cost of such special type of construction or installation, subject to appropriate adjustment when the actual cost has been determined.

---

CONSTRUCTION AND INSTALLATION CHARGES (Continued)

CONSTRUCTION CHARGES

Tariff provisions herein void that part of this Section of the tariff pertaining to Public Highway Construction in connection with new telephone line extensions.

1. (a) Where an applicant or applicants are to be furnished service, the length of construction required to reach the point of entrance of the applicant's private property, measured along the public highway either from the nearest existing distributing plant of the company or the nearest point to which the company plans to extend its facilities under an approved construction program, whichever is closer will be determined by the company.

For the length thus determined, the applicant will be required to pay construction charges in excess of the cost of one-half mile of standard pole line in place.

Where more than one applicant is to be furnished service along the same route, the length of construction required to reach the point of entrance on each applicant's private property, measured along the public highway either from the nearest existing distributing plant of the company or from the nearest point to which the company plans to extend its facilities under an approved construction program, whichever is closer, will be determined. For the length thus determined, the applicants as a group will be required to pay construction charges in excess of the cost of one-half (1/2) mile of standard pole line in place, per applicant multiplied by the number of applicants.

- 
- (b) If the company elects to attach its facilities to poles of other utility companies in lieu of providing standard pole line construction, the company will place one-half mile of circuit for each subscriber without construction charges. When facilities in excess of one-half mile per applicant are required on other utility companies' poles, the excess construction charges applied will not exceed those which would have been made if standard pole line construction had been applied.

CONSTRUCTION AND INSTALLATION CHARGES (Continued)

CONSTRUCTION CHARGES (Continued)

2. The total amount of construction charges to be paid by the applicants as a group shall be apportioned among them in such manner as the group may determine. The necessary construction need not be started, however, until satisfactory arrangements have been made for the payment of such construction charges. In the event the applicants fail to agree upon an apportionment of construction charges within sixty (60) days of the telephone company's quotation of charges, then the company may suggest pro-rated distribution of charges, based on relative distances of extension of pole lines among the applicants involved. If this suggestion is unacceptable to all applicants, then the telephone company may handle each applicant separately, in accordance with the provisions herein.
3. In case the company has on file other applications for service, from applicants located along the route to be used to serve the applicants referred to above, the telephone company shall combine the construction projects for the current applicants and the applicants who previously applied for service in accordance with and subject to the provisions above, if such action will serve to reduce the amount of construction charges to be paid by either of such groups.

BOUNDARIES

1. The following regulations are applicable with respect to each of the Company's exchange areas.
2. Where the boundary line of an area follows along one side of a road, that boundary line is considered, without further indication, as being located one hundred-fifty (150) feet from that side of the road.
3. Where the boundary line of an area follows along one side of a road, a building which has an entrance to that road at a point where that road is included in that area, is considered to be in that area, regardless of the geographical location of such building.
4. Where the boundary line of an area follows along the center of a road, a building which is located on the side of the road included in that area and which has an entrance to that road at a point where that side of the road is included in that area, is considered to be in that area, regardless of the geographical location of such building.
5. Where the boundary line of an area follows along the boundary line of a political subdivision, a private property line, a line which is shown on the map as being stated distance from a given point, a railroad, a river or a creek, a building which has an entrance to a road at a point where that road is included in that area, is considered to be in that area, regardless of the geographical location of such building.
6. Where a building has entrances into more than one area, the principal entrance shall determine the area in which such building is considered to be located in accordance with this section. In no case shall such a building be considered to be located in more than one area.
7. All units of a multi-unit building, such as a two-family house, an apartment house or an industrial building, are considered to be in the same area.
8. All buildings and premises of a subscriber on his continuous property are considered to be in the same area.

BOUNDARIES (Continued)

9. All buildings and premises on the continuous property of a common endeavor, such as an estate, amusement park, or airport, are considered to be in the same area as the owner or operator of the common endeavor. However, each occupant of such building or premise may subscribe to his own service. This regulation is applicable to every occupant of such buildings or premises, whether or not a part of or concerned in the common endeavor.
  
10. In the case of developments such as trailer and tourist camps and garden type housing projects, where the various buildings, trailers or other structures are occupied by persons who are not a part of a common endeavor, private streets, roads and driveways in such developments are considered, under the provisions of this paragraph, to be public roads for the purpose of determining the road to which a building, trailer or other structure has an entrance. Each building, trailer and other structure is considered separately for the purposes of determining the area from which it will be served.

---

N11 SERVICE  
811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS

A. GENERAL

1. The Federal Communications Commission (FCC) assigned the 811 dialing code for nationwide access to One Call Notification Systems. The 811 dialing code ("811 Service") is a nationwide toll-free number to be used by state "One Call" notification systems for providing advanced notice of excavation activities to underground facility operators.
2. The three digit 811 abbreviated dialing One Call Notification code is assigned to the approved "811 Provider" for use in providing One Call notification services to the public by way of voice grade facilities.
3. 811 Service is available from the Company within its services area only. To provide access to 811 to end users in another company's service area or to Competitive Local Exchange Carrier (CLEC) end users within the local calling area, the 811 Provider must make appropriate arrangements with the other company or CLEC serving that territory. The 811 Provider should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.
4. All 811 abbreviated dialing code calls must be local in nature and will not result in any expanded local calling area (ELCA), intraLATA toll, interLATA long distance, or pay-per-call charges to Company subscribers. However, 811 Service calls may result in local measured service charges where Company subscribers' service plans include such charges.
5. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. 811 Service is otherwise available wherever local service is accessible.

B. OBLIGATIONS OF THE APPROVED "ONE CALL" NOTIFICATION SYSTEMS PROVIDER

1. The 811 Provider must submit a written application for 811 Service to the Company. The 811 Provider may establish 811 Service in all or part of the Company's exchanges. There may be only one 811 Provider per exchange.
2. The 811 Provider's written application to establish 811 Service in a Company local exchange must include the following:
  - a. The local, foreign exchange, or toll free telephone number into which the Company should translate the dialed 811 abbreviated code. If the 811 Provider desires to change the telephone number into which the 811 abbreviated dialing code is translated, the 811 Provider must pay a Number Change Charge as set forth in Section F. below.
  - b. For network sizing and protection, an estimate of annual call volumes and holding time for calls to the 811 Service.
  - c. An acknowledgement of the possibility that the Commission's assignment of the 811 abbreviated dialing code may be recalled at any time.

---

N11 SERVICE (Continued)  
811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS (Continued)

B. OBLIGATIONS OF THE APPROVED "ONE CALL" NOTIFICATION SYSTEMS PROVIDER  
(Continued)

3. Local Calling for Company Subscribers
  - a. The 811 Provider, in cooperation with the Company, will assure that all 811 Service calls are local and do not generate ELCA, intraLATA toll, interLATA long distance, or pay-per-call charges for Company subscribers.
  - b. When the 811 Provider applies for 811 Service from the Company, the 811 Provider must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by the 811 Provider.
4. The 811 Provider is liable for and will indemnify, protect, defend and hold harmless the Company against all suits, actions, claims, demands and judgments, plus any expenses and counsel fees incurred by the Company on account thereof, whether suffered, made, instituted or asserted by the 811 Provider or any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage, or destruction of any property, whether owned by the 811 Provider or others, arising out of or resulting directly from the 811 Service.
5. The 811 Provider must develop an appropriate method of responding to 811 calls directed to it out of confusion or in error by Company subscribers.
6. The 811 Provider must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public, and enable the 811 Provider to receive calls to the 811 Service during normal business hours.
7. The 811 Service is provided on the condition that the 811 Provider subscribes to termination facilities and lines in sufficient quantities to adequately handle calls to the 811 Service without interfering with or impairing any services offered by the Company.
8. The 811 Provider must comply with all present and future state and federal rules pertaining to abbreviated dialing codes.
9. The 811 Provider is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service. The 811 Provider is also responsible for obtaining all necessary permissions, licenses, written consents, waivers, and releases and all other rights from all holders of copyrights, trademarks and patents used in connection with the 811 Service.

N11 SERVICE (Continued)  
811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS (Continued)

B. OBLIGATIONS OF THE APPROVED "ONE CALL" NOTIFICATION SYSTEMS PROVIDER  
(Continued)

10. The 811 Provider must respond promptly to all complaints lodged with any regulatory authority against the 811 Service. If requested by the Company, the 811 Provider must assist the Company in responding to complaints made to the Company concerning the 811 Service.
11. The 811 Provider shall not promote the 811 Service with the use of any auto dialer or broadcasting of tones that dial the 811 abbreviated dialing code.
12. The 811 Provider must work separately with CLECs operating and serving customers in the Company's exchange(s) to ascertain whether 811 abbreviated dialing will be available to their end users.

C. OBLIGATIONS OF THE COMPANY

1. The Company will establish the 811 Service within ninety days after receipt of the 811 Provider's completed application(s) for service or the effective date of this Tariff, whichever is later.
2. When an 811 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 811 Service call, the quality of the call or any features that may otherwise be provided with the 811 Service.
3. The Company will route 811 calls originating from end users on the Company's local exchange network whether they purchase service directly from the Company or from another provider reselling company service. Otherwise, the Company is not responsible for establishing 811 Service for calls originating from other telecommunications providers.
4. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable the 811 Provider to respond to such calls at the 811 Provider-established call centers.
5. The rates charged for 811 Service, if applicable, do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The 811 Provider must conduct such operational tests as, in the judgment of the 811 Provider, are required to determine whether the Company's facilities are functioning properly for its use. The 811 Provider must promptly notify the Company in the event the Company's facilities are not functioning properly.

---

N11 SERVICE (Continued)  
811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS (Continued)

D. LIABILITY

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the 811 Provider for the 811 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect of failure in facilities occurs.
2. The Company is not liable for any losses or damages caused by the negligence of the 811 Provider.
3. The Company's entire liability to any person for interruption or failure of the 811 Service is limited to the terms set forth in this and other sections of this Tariff.
4. The Commission's local assignment and the 811 Provider's use of the 811 abbreviated dialing code are subject to preemption by the Federal Communications Commission. The Company shall not be liable to the 811 Provider for any damages the 811 Provider may incur that result from a national assignment of the 811 abbreviated dialing code.
5. The Company will make every effort to route 811 calls to the appropriate 811 Provider call center. However, the Company will not be held responsible for routing mistakes or errors.

E. OTHER TERMS AND CONDITIONS

1. The 811 Service will not provide calling number information in real time to the 811 Provider. If this type of information is required, the 811 Provider must subscribe to compatible Caller ID service as described elsewhere in this Tariff.
2. The 811 Service is provided for the benefit of the 811 Provider. The provision of the 811 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the 811 Provider.

---

N11 SERVICE (Continued)  
811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS (Continued)

E OTHER TERMS AND CONDITIONS (Continued)

3. A written notice will be sent to the 811 Provider following oral notification when its 811 Service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of abbreviated dialing codes. If, after such notification, the 811 Provider makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the 811 Provider is unwilling to accept the modifications, or if the 811 Provider continues to cause service impairment, the Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service.
4. In an emergency situation as determined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures, up to and including termination of service.

F. RATES & CHARGES

1. A Central Office Charge applies for each Company host central office out of which the 811 Provider orders 811 Service, as follows:
  - a. When a Company exchange is served by more than one host central office, a Central Office Charge is applicable for each host central office in that exchange.
  - b. If the 811 Provider establishes 811 Service in multiple Company exchanges serviced by the same host central office, only one Central Office Charge applies.
2. A Number Change Charge applies when the 811 Provider establishes service or applies to change the telephone number into which the 811 abbreviated dialing code is translated. The Number Change Charge is applied on a per telephone number, per host central office basis.
3. When translating the seven or ten digit number to the 811 abbreviated dialing code, applicable Service Connection Charges will apply.

GENERAL RULES AND REGULATIONS

A. APPLICATION

The rules and regulations specified herein apply to the provisions of BLES as defined in Section 1, Sheet No. 1 herein.

In the event of a conflict between any rates, rules, regulation or provision contained in these General Rules and Regulations and any rate, rule regulation or provision contained in the other section of this BLES Tariff, the rate, rule, regulation or provision contained in the specific section of this Tariff shall prevail.

B. GENERAL RULES AND REGULATIONS

1. The Company shall not be required to furnish nor be held liable for failure to continue to use its public or private rights-of-way over a direct route then deemed expedient by the Company.
2. In view of the liability to errors in transmitting speech by telephone and the impossibility of fairly fixing the cause thereof, all risks of service are assumed by the subscriber.
3. The subscriber shall be responsible for the use of the telephone and for any damage to apparatus caused by carelessness or negligence.

GENERAL RULES AND REGULATIONS (Continued)

C. USE OF SERVICE AND FACILITIES

1. Use of Subscriber Service

Subscriber service, as distinguished from public and semi-public service is furnished only for use by the subscriber, his family, employees, or representatives, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Company will refuse to install subscriber service, or to permit such service to remain on premises of a public or semi-public character where the service is so located that the public in general or the patrons of the subscriber may make use of the service.

D. ADVANCE PAYMENTS

Applicants for service involving special construction may be required to make an advance payment. The amount of the advance payment is credited to the Customer's account as applying to any indebtedness under the contract.

P.U.C.O. NO. 7

ENHANCED EMERGENCY TELEPHONE SERVICE (E911 SERVICE)

A. GENERAL

When requested by local government authorities, and subject to the availability of facilities, The Conneaut Telephone Company will provide a universal number "E911" for the use of Public Safety Answering Points (PSAPs) engaged in assisting local government in the protection and safety of the general public. Use of the "E911" number will provide each caller with telephone access to the appropriate local PSAP.

B. REGULATIONS

The regulations set forth below apply to "Enhanced 911" service, hereinafter referred to as 911 service:

1. Application for 911 service shall be executed in writing by each participating local government authority or their duly appointed agent. If application is made through an agent of the local government authority, the company shall be provided with evidence, satisfactory to the company, of the appointment and establishment of service. As a minimum, both police and fire departments in each local government authority must participate in any 911 service and participation shall be in the same 911 service.
2. The 911 service customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been legally delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility to respond to telephone calls from the public for emergency police and fire and other services with the telephone central office areas arranged for 911 service calling.
3. Each participating local governmental authority must furnish to the Company its written agreement, duly executed, by which it shall agree to:
  - a. Provide sufficient personnel to staff the PSAP on a 24 hour continuous basis.
  - b. Accept responsibility for dispatching, or referring, forwarding or transferring 911 calls to other participating local government authorities for the dispatch of police, fire, ambulance or other emergency services to the extent such services are reasonably available.

---

Issued: May 12, 2011

Effective: May 12, 2011

In Accordance with Case No. 10-1010-TP-ORD and 11-2939-TP-ATA

Issued by the Public Utilities Commission of Ohio

Ken Johnson, General Manager

ENHANCED EMERGENCY TELEPHONE SERVICE (E911 SERVICE) (Continued)

B. REGULATIONS (Continued)

- c. Subscribe to additional local exchange service, at the PSAP location, for administrative purposes, for placing outgoing calls and for receiving other emergency calls, including calls that might be relayed by an operator.
  - d. Make operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Telephone Company in the event the system is not functioning properly.
4. The service is limited to the use of central office telephone number 911 as the emergency number. Only one 911 service will be provided with any government agency's locality.
  5. The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.
  6. E911 Service is arranged only for one-way incoming service to an appropriate PSAP. Out going calls can only be made on a transfer basis.
  7. Information contained in the Company's data base management system will be maintained for 911 service and will be used exclusively for this purpose.
  8. E911 Service information consisting of the name, address and telephone numbers of customers who subscribe to non-published telephone service is confidential and the PSAP agency agrees to use such information only for the purpose of responding to emergency 911 Service calls. No liability for damages arising from disclosure of a non-published telephone number shall be attached to the Company.
  9. Any party residing within the 911 Service serving area forfeits the privacy afforded by non-published telephone numbers to the extent that the customer's name, telephone number and address associated with the originating station location are furnished to the PSAP.
  10. Because the Company authorized service area boundary and political subdivision boundary may not coincide, the customer must make arrangements to handle all calls received on 911 Service lines that originate from all telephones served by The Conneaut Telephone Company, whether or not the calling telephone is situated on property within the geographical boundary of customer's public safety jurisdiction.

ENHANCED EMERGENCY TELEPHONE SERVICE (E911 SERVICE) (Continued)

B. REGULATIONS (Continued)

11. The customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to a 911 Service PSAP by calling parties.
12. The number of lines to the "lead" local exchange company shall be as required by the Ashtabula County E911 Emergency Telephone Number System Plans.
13. The calling party is not charged for calls placed to the E911 number, however regular message toll charges will be applied to the PSAP line, where appropriate, for messages transferred by a PSAP over exchange facilities from the central office serving the PSAP initiating the transfer to the point of termination of the transfer, if located outside the local calling area of the exchange.
14. The Company does not undertake to answer and forward E911 service call, but furnishes the use of its facilities to enable the customer's personnel to accept such calls on the customer's designated premises.

C. E911 SERVICE FEATURES

1. Automatic Number Identification (ANI):

A feature by which the calling party's telephone number is forwarded to the E911 control office and to the PSAP's display and transfer units.

D. RATES AND CHARGES

1. E911 service is provided to residents who subscribe to local exchange telephone service. The rate for this service will be as indicated for the appropriate county on the following County Rate List.

LIFELINE/LINK-UP REQUIREMENTS

A. GENERAL

(N)

The Conneaut Telephone Company shall provide Lifeline service as defined in 47 C.F.R. § 54.401 (a) on a non-discriminatory basis to all qualifying low-income customers. The Conneaut Telephone Company's Lifeline service offering shall comply with all applicable federal and state laws, including, but not limited to, 47 C.F.R. Part 54, Subpart E; the FCC's Lifeline reform order (Report and Order released April 27, 2016, WC Docket No. 11-42, et. al) and any subsequent clarifying orders; Section 4927.13, Revised Code; Rule 4901:1-6-19, Ohio Administrative Code; and, the Commission's nontraditional Lifeline service order (Finding and Order adopted November 3, 2016, Case No. 16-1116-TP-COI) and any subsequent entries and/or orders.

INTRALATA PRESUBSCRIPTION

1. General

IntraLATA Presubscription is a procedure whereby a subscriber designates to the Telephone Company the carrier which the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. IntraLATA presubscription does not prevent a subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per call basis.

2. IntraLATA Presubscription Options

Option A. Subscriber may select the Telephone Company's intraLATA carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option B: Subscriber may select her/his interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option C: Subscriber may select a carrier other than the Telephone Company's intraLATA carrier or the subscriber's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option D: Subscriber may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA calls to the carrier of choice of each call.

3. Rules and Regulations

Subscribers of record on the effective date of this tariff will retain their current dialing arrangements until they request that their dialing arrangements be changed. Until an affirmative choice is made, all subscribers will be assigned to the Telephone Company's intraLATA carrier.

Subscribers of record or new subscribers may select either Options A, B, C, or D for intraLATA Presubscription.

Subscribers may change their selected Option and/or their presubscribed IntraLATA toll carrier at any time subject to charges specified in Paragraph 5 below.

---

INTRALATA PRESUBSCRIPTION (Continued)

4. IntraLATA Presubscription Customer Notices

The Telephone Company will notify subscribers that intraLATA Presubscription is available no longer than sixty (60) days following the effective date of this tariff. The notice will contain a description of intraLATA toll presubscription, how to make an intraLATA toll presubscription carrier selection, and a description of when and what charges apply related to the selection of an intraLATA toll carrier.

5. IntraLATA presubscription Charges

a. Application of Charges

There will be no charges for a subscriber's initial intraLATA toll presubscription selection for a period beginning on the effective date of this tariff and ending no sooner than ninety (90) days following the mailing date of subscriber notification of intraLATA presubscription availability.

New local service subscribers will be asked to select a carrier(s) for their intraLATA toll and interLATA calls subject to presubscription at the time they place an order with the Telephone Company for local exchange service. If the new subscriber is unable to make a selection, at that time, the new subscriber will be read a random listing of all available intraLATA toll carriers to aid their selection. If the new subscriber is still unable to make a selection, at that time, the Telephone Company will inform the new subscriber that he/she will be given ninety (90) days in which to inform the Telephone Company of an intraLATA toll presubscription carrier choice at no charge. The new subscriber will also be informed that the Telephone Company will assess a charge for any selections made after the ninety (90) day window and that until a selection is made the subscriber will be required to dial a carrier access code to route all intraLATA toll calls.

New subscribers who do not make an intraLATA toll carrier presubscription choice at the time the new subscriber places an order establishing local exchange service with the Telephone Company will not be presubscribed to any intraLATA toll carrier, but rather will be required to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

After a subscriber's initial selection for a presubscribed intraLATA toll carrier, for any change thereafter, an IntraLATA Presubscription Change Charge will apply as follows:

---

INTRALATA PRESUBSCRIPTION (Continued)

a. Application of Charges (Continued)

- (1) The charge shall be no greater than those set forth in Paragraph 5.b., unless modified by a company-specific Commission-approved tariff.
- (2) If a Subscriber changes both the InterLATA and IntraLATA Presubscribed Interexchange Carrier at the same time, 50% of the otherwise applicable IntraLATA Presubscription Change Charge will apply.

b. Nonrecurring Charges IntraLATA Presubscription Change Charge

Per business or residence line, trunk, or port:

--	Manual Process	\$5.50
--	Electronic Process	\$1.25
